Carb kits or carburetor rebuild kits are among the most frequently purchased outboard maintenance parts. New gaskets, o-rings, and fuel inlet needles and seats are often required to return a poorly performing motor to good working order. Some carb kits contain floats and some don't. The main carb jets are not in all kits, either, so it's a good idea to look at a complete engine diagram to see ...

Discussion Areas

The first Sea-Doo jet skis, the serial production of which began in 1988, had virtually no competitors, but not for long. In subsequent years, the struggle of the ancestor against the lingering colleagues (Kawasaki, Polaris, Yamaha, etc.) made aquabikes not only modified, but also get new requirements for the engine and other systems.
