is the only woman to have received the Fields Medal, the highest award in mathematics.. Mirzakhani worked at the intersection of dynamical systems and geometry. She studied objects like hyperbolic surfaces and complex manifolds, but also contributed to many ...

Timeline of Mathematics - Mathigon

In mathematics, division by zero is division where the divisor (denominator) is zero. Such a division can be formally expressed as $\frac{a}{0}$, where a is the dividend (numerator). In ordinary arithmetic, the expression has no meaning, as there is no number that, when multiplied by 0, gives a (assuming $a \neq 0$); thus, division by zero is undefined. Since any number multiplied by zero is zero, the expression is ...
