Gender Roles In Different Literary

Gender Roles in Literature. Gender behavior is significantly influenced by the processes of socialization and social forces than by natural or innate differences. Gender roles depend on society, culture, geographic location, politics and more. The society in which one lives determines to a huge extent the patterns of behavior that a person has to be in line with, depending on their sex.

GENDER ROLES IN LITERATURE. Many people think that boys in our culture today are brought up to define their identities through heroic individualism and competition, particularly through separation from home, friends, and family in an outdoors world of work and doing. Girls, on the other hand, are brought up to define their identities through connection, cooperation, self-sacrifice, domesticity, and community in an indoor world of love and caring.

No matter how broad that role is, it will be—by-nature—a reduction from the infinite variety that is womanhood. I say that there is no role for women—there is, instead, a role for each woman, and she must make it for herself. For some, it will be the role of scholar; for others, it will be the role of wife. For others, it will be both.
